

ENGINEERING CO., LTD

COMPANY PROFILE

YOUR TRUSTED INFRASTRUCTURE ENGINEER

NOTE FROM OUR FOUNDER

“ At TCM, it is a *MUST* that we grow and advance with the new age to provide the *highest quality to our clients* ”

Mr. HUANG CHAO CHING

ABOUT US

TCM Engineering Co., Ltd was incorporated in Cambodia since the early years of the nation rebuilding. In 1994, TCM Engineering was form through an international alliance of civil engineering professionals from Taiwan, Cambodia, and Malaysia.

Initially, with nation building priority in mind, TCM was set out to supply asphaltic concrete; improve, rebuild and establish new roads and highway throughout Cambodia. Over the years, as we have advanced and expanded into construction of bridges, buildings, water supply and sewage system and many other related civil engineering projects.

OUR CORE VALUE

Integrity

We act with integrity and honestly in the work we do, the people we interact with and the decisions we made. We are accountable to one another and those we serve.

Excellence

We strive to continuously improve, adapt, evolve and innovate our products and services to achieve excellence above the industry standard.

Openness

We foster openness, respect and trust with our employees and clients to create an environment where we can strive for excellence.

Team Work

We believe in achieving more together. We value our employees and therefore creating an enjoyable work environment that allows personal growth; hence leading to a loyal and productive work force.

OUR MISSION

We are committed to provide the highest possible level of professional construction services for our clients with mutual support, teamwork and uncompromising ethical standards.

- To help our clients achieve their construction objectives within budget and in a professional timely manner
- To offer design and construction services that cater to the specific needs of our clients with outstanding quality and competitive price

OUR BUSINESS STRATEGY

At TCM Engineering, we pride ourselves as a professional partner to our clients in both the government and private sectors. With more than 15 years of local knowledge and expertise, we stand to offer our clients more than just our services but also valuable and critical advices to their projects.

We are capable to draw in the best engineering minds and experience from our partner countries to offer our clients unparalleled experts' advice and solutions to meet any engineer challenges.

We continually strive to invest in our human resources, equipment and R&D facilities to ensure that our clients get the maximum reliability and cost efficiency.
